[SUBJECT]

The main characteristic of full block business letters is that everything (except maybe a prepared letterhead) flush with the left margin. Full block letters are a little more formal than modified block letters.

If your letter is only one page, type the complimentary close and optional comments as shown below. Otherwise, type them on the last page of your letter. (See page 2 after you download the letter, or click on the appropriate link in the menu below.)

Sincerely,

## memorandum

DATE: **December 12, 2007**

REPLY TO:  
ATTN OF:

SUBJECT: **2007-1 DATA CALL FOR Y-12 NSC**

TO: **Dr. Jerry N. McKamy, Nuclear Criticality Safety Program Manager, NNSA Office of Facility and Infrastructure Acquisition and Operation, NA-17, GTN**

Attachment to this memorandum is the information, as previously coordinated, to answer the 2007-1 data call for Y-12. This attachment provides information relative to the number of total active points (note: will include NMCA as well as NCS), and then the NCS points and active processes reliant upon uranium holdup survey program (UHSP) measurements for NCS. The data was culled a bit further to differentiate (i.e., if there is any - a minor detail) relative to NCS controlled documents (i.e., criticality safety evaluations and analyses documents) vs. operations controlled procedures. These operations procedures may still be NCS related but not as directly tied to NCS program and hence the CSP description document. This later was accomplished given your expressed interest in the flow down from the criticality safety program (CSP) description document itself.

The Y-12 CSP description document as required under DOE order 420.1B, is chapter 6 of Y-12 National Security Complex Safety Analysis Report (YFSD-17, Rev.4, November 2007). The CSP designates the UHSP and the inadvertent accumulation prevention program (IAPP) as programs relied upon by NCS under section 6.7. An active data base of UHSP points is maintained per the UHSP procedure that is referenced in the CSP. The attached response is based upon a printout of this dynamic data base on 11/29/07. While the nature of this data base, especially given the IAPP baseline walk downs currently in progress, changes day to day the general risk ranking, determining overall dependence of facilities upon UHSP, etc. as requested for this 2007-1 data call should not affect the overall risk conclusions drawn.

If there are any questions related to this response please feel free to contact me as needed at (865)574-8647.

Re: Rhode Island Joint Reinsurance Association, 2008 Rate/Policy/Service Fee

The Association has filed and the Director of Insurance has approved an amendment to the Rhode Island Reinsurance Program. The revised treatment plan explains the number of installments and length of time an insured will be able to spread premium payment over. In conjunction with this change, the Association has decreased the service charge applied to each installment.

This new treatment program will be in effect beginning September 1, 2008. The revised treatment plan and the additional installment payments. Payments will be spread over a period of two hundred thirty days. Individual installment payments are due at 10%, 20%, 30% and 40% from the policy inception. The service charge will be 10% on the first installment and 15% on the second. These changes are effective September 1, 2008 for New Business and October 1, 2008 for Renewals.

The previous treatment plan will no longer be offered after these effective dates. A complete outline of the treatment plan is attached to your notice. Payments can be made online at [www.rija.com](http://www.rija.com) or by sending payment to:

Rhode Island Joint Reinsurance Association  
PO Box 181000  
Boston, MA 02118-0100

If you have any questions regarding this change, please contact the Association's Consumer Service Unit.

Very Truly Yours,
